2019 – 2021

Percentage: 83%.

Technical Skills

- **Languages:** Java (primary), SQL, C, C++, JavaScript, HTML, CSS.
- **Frameworks / Libraries:** Spring Boot, Spring Data JPA, Spring JDBC, Hibernate, Servlets/JSP, ReactJS, Tailwind CSS.
- **Databases:** MySQL, PostgreSQL.
- **Tools:** Git, GitHub, Postman, Render, Vercel.
- **Core concepts:** OOP, Data Structures & Collection Framework.

Selected Projects

- **QuizKrida — Online Quiz Platform** [Link] Dec 2025 – Jan 2026
Full-stack quiz platform where mentors create quizzes and generate unique quiz IDs for players. Features include AI-generated quizzes, public quiz gallery and globally themed quizzes. Designed application architecture and developed complete backend and database interaction using Spring Boot.
- **OneView — Self-Destructing Messaging App** [Link] Jul 2025
Messaging app where users send a message and receive a unique code to share; recipients use the code to view the message once, after which it is automatically deleted. Focused on backend logic.
- **Padarth — Ingredient Info Provider** Apr 2025
Web app (Servlet, JSP, Gemini API, Tesseract OCR) that extracts ingredient information from images or search; developed for RSM-Hackathon S-25.
- **Personal Portfolio Website** [Link] Feb 2025
Responsive site built with HTML/CSS/JS to showcase projects.
