Profile

Full-stack developer with hands-on internship experience building production applications using ASP.NET (C#), Java/Spring Boot, and low-code/no-code (LCNC) platforms. Skilled in database design, backend development, RESTful APIs, authentication, and application architecture, with a growing focus on AI-driven features and cloud deployment. Fast learner and collaborative developer with experience working directly with engineering leadership to deliver internal tools and client-facing applications.

Education

Master of Computer Applications (MCA) (*Pursuing*) 2026–27 to 2027–28

Indira College of Engineering and Management, Pune (Affiliated to SPPU)

Bachelor of Computer Applications (BCA) Jul 2023 – Jan 2026

College of Computer Science and Information Technology, Latur

CGPA: 8.81/10 (Final Year). Key coursework: Java, Data Structures, DBMS, Web Development. Awarded NSP Scholarship.

Higher Secondary Certificate (HSC) – Commerce with IT 2021 – 2023

Dayanand College of Commerce, Latur – Percentage: 93.5%. 1st Rank in IT (98/100).

Secondary School Certificate (SSC) 2019 – 2021

Sadanand High School, Latur – Percentage: 83%.

Experience

Fullstack & AI Development Intern — RashmiTech Labs Pvt. Ltd., Latur Jun 13 – Sep 2026

- **HishobX – Small Finance Application** (Aug 1 – Sep 10, 2026): Working as one of two developers on a finance application that enables small lenders to digitize manual collection registers, process daily collections, and close loan accounts. Designed and built the application's database and developed multiple UI screens using the company's proprietary .NET-based LCNC framework. Implemented backend business logic in JavaScript executed within the LCNC engine.
- **Attendance & Logs Tracking System** (Jul 15 – Jul 30, 2026): Independently designed and developed an internal attendance and logs tracking system using ASP.NET (C#), under the direction of the Director.
- Gained practical experience across the software development lifecycle, including authentication and authorization, database design, backend development, LCNC application development, debugging, and deployment. Transitioned core Java development skills to ASP.NET (C#) during the internship.

Projects

QuizKrida V2 – High-Performance Campus Assessment Engine 2026

A secure, decoupled examination platform designed for high-concurrency student traffic. Implemented in-memory caching to reduce database load during live assessments, stateless JWT-based authorization, and an independently deployed microservice for AI-driven question generation.

Java, Spring Boot, Spring Cache, JWT, MySQL, REST API

Technical Skills

- **Languages:** Java, C#, SQL, C, C++, JavaScript, HTML, CSS.
- **Frameworks / Libraries:** Spring Boot, Spring Data JPA, Spring JDBC, Spring Cache, Hibernate, Servlets/JSP, ASP.NET (C#), ReactJS, Tailwind CSS.
- **Databases:** MySQL, PostgreSQL.
- **Platforms:** Low-Code/No-Code (LCNC) application development, .NET-based platforms.
- **Tools:** Git, GitHub, Postman, Render, Vercel.
- **Core Concepts:** Object-Oriented Programming, Data Structures, Collection Framework, JWT Authentication & Authorization, REST API Design.

Courses & Achievements

- **Star Performer Award** – RashmiTech Labs Pvt. Ltd. (2026).
- Online courses: Core Java (Telusko), Spring Framework (Telusko), Servlet & JSP (Telusko), Java DSA (Apna College), React Basics (CodeWithHarry).
- NSP Scholarship recipient; 1st Rank in HSC IT subject (98/100).

Other Skills & Languages

- Problem solving, debugging, teamwork, communication, adaptability.
- **Languages:** English (Fluent), Hindi (Proficient), Marathi (Fluent), Kannada (Native).
